`multiplot`

Do multiple plots in one image <http://www.cookbook-r.com/>

Description

Do multiple plots in one image <http://www.cookbook-r.com/>

Usage

```
multiplot(..., plotlist = NULL, file, cols = 1,  
          layout = NULL)
```

Arguments

<code>...</code>	plots objects from ggplot2 (gg object)
<code>plotlist</code>	a list of plots objects from ggplot2 (gg object)
<code>cols</code>	Number of columns in layout
<code>layout</code>	A matrix specifying the layout. If present, 'cols' is ignored.
